Retainer Starts

Month 2 (after launch)

Minimum Commitment

3 months

Your investment pays for itself at

3–4

orders per day on Amazon

At avg. order ₹600 and 80% margin, 100 orders/month = ₹48,000 net profit. The retainer pays for itself.

PPC Ad Spend

Paid directly by SD18 to Amazon/Flipkart. We manage the campaigns, you control the budget.

As SD18 Grows, We Grow Together

Our pricing is designed to scale with your success. We only earn more when you earn more.

How It Works

- Base retainer: ₹50,000/month (fixed)
- Growth clause: When combined Amazon + Flipkart monthly revenue exceeds ₹5,00,000, a 4% performance fee applies on revenue above ₹5 lakh.
- Review: Scope and pricing reviewed together at the 6-month mark.

What This Looks Like in Practice

SD18 MONTHLY REVENUE	BASE RETAINER	4% ON EXCESS	TOTAL YOU PAY
₹3,00,000	₹50,000	₹0 (below ₹5L)	₹50,000
₹5,00,000	₹50,000	₹0 (at threshold)	₹50,000
₹8,00,000	₹50,000	₹12,000	₹62,000
₹12,00,000	₹50,000	₹28,000	₹78,000
₹15,00,000+	₹50,000	₹40,000	₹90,000

Why This Is Fair

- You pay ₹50K until revenue crosses ₹5 lakh — zero risk
- 4% is modest — you keep 96% of every additional rupee
- Our incentive is fully aligned with your growth
- We review together at 6 months — full transparency
- No hidden fees, no surprises

We only earn more when we are making you more. That is how partnerships should work.
