

Elevate Strategy

"Your brand has built something rare. Let us help the world see it."

Who We Are

Elevate Strategy — a boutique strategy agency built by people who have worked at scale and came back to help growing brands do it right.

Aditya Shubham — Co-Founder & Tech Lead

MBA, IIM Visakhapatnam · Ex-Amazon (EU Markets,
Trailblazer Award)

Built ML-powered growth strategies that tripled product signups.

Adam Khan — Co-Founder & Strategy Lead

What We Did

We audited your entire online presence.

Before this meeting, we independently analyzed:

- **Your website** — sd18sports.com — every page, every link, the source code
- **Your social media** — YouTube, Facebook, Instagram
- **Your competitors** — SG Cricket, SS Cricket, DSC, BDM, and 3 more
- **Your brand positioning** — what you say vs. what the world sees

What SD18 Has That Competitors Do Not

Most cricket brands just sell gear. **You are building something bigger.**

97,300

YouTube Subscribers — larger than the population of most towns. Your audience already exists. Your website just does not know about it.

Bihar State Cricket Academy — You are the official kit

What Needs Fixing Today

1. Your brand name is wrong on your own website.

The About page says "Welcome to **AD18Sports**" — not SD18.

2. Your refund policy has placeholder text.

It literally says: *"Items must be returned within [insert number of days, e.g., 7] days."*

3. Different contact info on different pages.

Main site: info@sd18sports.com / 8001818666

Refund page: sd18sports@gmail.com / 098008 48482

4. Your template developer's link is in your source code.

The Brand Gap

“SD18 Sports is more than just a brand — it is a movement.”
— Your About page”

But your homepage shows "**Bracelets, Earrings, Rings, Necklaces, Charms**" in the "Our Collections" section — leftover from the **jewelry template** your site was built from.

Your brand aspiration:

Your website today: ■■ 15%

How SD18 Stacks Up

	SD18	SG Cricket	SS Cricket	DSC
Website	Template (SSB)	Professional	Professional	Professional
Brand Story	Generic AI text	Heritage (1931)	Legacy (1969)	Strong narrative
Social Proof	None on site	ICC, pro players	Team India	Endorsements
YouTube	97.3K subs	Large	Moderate	Moderate
Community	Tournaments + Academy	Limited	Limited	Limited
Reviews	None	Integrated	Integrated	Integrated

What This Gap Is Costing You

No SEO strategy — 3 blog posts targeting generic keywords. Your competitors rank for hundreds of cricket-related terms. Every search you miss = a customer going to SG or SS.

No email capture — No newsletter, no first-purchase discount, no abandoned cart recovery. Every visitor who leaves is gone forever.

No social proof — 97K YouTube subscribers, but zero testimonials, zero ratings on your website. Trust is built with proof.

A live, working redesign concept is ready for you to see.

Before: Jewelry template · wrong brand name · 6 fonts · no story

After: A modern, fast sports brand website that matches your ambition

Key changes in the redesign:

- Hero section with action cricket photography
- **"Official Kit Partner — Bihar Cricket Academy"** trust badge

A Page That Does Not Exist Yet — But Should

Community & Sponsorship Hub

Bihar Cricket Academy Partnership

Official kit partner section with photos, academy
achievements, player spotlights

Tournament Hub

Past events gallery, upcoming tournament calendar,
registration, results

What Happens When Technology Meets Your Brand

We do not just build websites. We build intelligent systems.

AI Chatbot for WhatsApp — Customers ask "Which bat is best for leather ball under Rs 2000?" and get an instant, accurate answer. 24/7. No extra staff.

AI Product Descriptions — SEO-optimized descriptions for every SKU, generated in hours not weeks.

AI-Powered SEO — The same ML models we used to drive 3x 11

From 97K Subscribers to a Content Ecosystem

YouTube (97.3K subscribers)

Optimize channel description (currently empty) · Cross-promote to website

Embed top videos on product pages · Tournament highlight reels

Instagram (@sd18sports)

Consistent 4-5 posts/week · Content pillars: Product, Community, Cricket Tips

We Practice What We Preach

Visit **elevatestrategy.co.in** — our own website, built with the same technology we would use for SD18.

- Next.js, React — fast, modern, SEO-optimized
- Mobile-first responsive design
- Real content, real people, real work

Case Study: finder.io

We built an ML-powered SEO strategy that **tripled signups** (300 to 900/month) and made it the #1 product in a 40-

The Roadmap

Phase 1: Quick Wins (Week 1–2)

Fix all 4 critical issues · Remove jewelry template categories

Draft proper legal policies (our partner is a High Court advocate)

Basic SEO fixes · Clean URL structure · YouTube channel optimization

Phase 2: Brand Transformation (Month 1–2)

Full website redesign · Real brand story development

Why Us, For This

What you need	What we bring
A real website, not a template	An Amazon-trained engineer building with Next.js
Legal policies that protect you	A practicing High Court advocate
Content that sounds human	A literature professor writing since 2016
Strategy, not just a redesign	IIM-trained strategists who think in systems
AI tools that actually work	Built ML models at Amazon (80 of 14,000 selected)
Someone who gets sports	A national-level footballer and cricket enthusiast

Next Steps

Let us start with the quick wins.

- 1. This week** — We fix the 4 critical issues and remove the jewelry categories. No cost to you. Consider it a demonstration.
- 2. Next week** — We present the full Phase 2 proposal with timeline and investment.
- 3. Your only commitment right now** — Give us access to your website backend.
