We Audited Your Entire Online Presence

Before this meeting, we independently analyzed everything — without needing any access from you.

Website

Every page, every link, the source code of sd18sports.com

Social Media

YouTube, Facebook, Instagram — followers, content, engagement

Competitors

Hidden Strengths

Assets most agencies would miss entirely

HIDDEN STRENGTHS

What SD18 Has That Competitors Do Not

Most cricket brands just sell gear. You are building something bigger.

97,300

YouTube Subscribers

Larger than the population of most Indian towns. Your audience already exists — your website just does not know about it.

OFFICIAL PARTNER

Bihar State Cricket Academy

SG charges lakhs for this credibility. You already have it — but your website does not mention it once.

COMMUNITY

Cricket Tournaments & Events

You organize real matches. This builds community that no advertising budget can buy. But online, it is invisible.

ENDORSEMENT

Association with Cricketer Akash

Your Facebook mentions an Indian cricketer. Your website has zero mention of this partnership.

What Needs Fixing Today

These are visible on your live website right now. Any customer can see them.

1 Wrong Brand Name on Your Own Website

Your About Us page says:

*“Welcome to **AD18Sports**”*

It should say SD18Sports. This damages brand credibility the moment someone visits your About page.

2 Placeholder Text in Refund Policy

Your refund policy page literally says:

*“Items must be returned within **[insert number of days, e.g., 7]** days of delivery.”*

This is legally questionable and looks deeply unprofessional. A customer seeing this would lose trust instantly.

3 Inconsistent Contact Information

Different pages show different contact details:

	EMAIL	PHONE
Main Site	info@sd18sports.com	8001818666
Refund Page	sd18sports@gmail.com	098008 48482

Which one should a customer trust? Inconsistency creates confusion and erodes confidence.

4 Generic AI-Written About Page

Your About page uses generic, template text with no real story:

“We are passionate about pushing the boundaries of athletic excellence...”

No founder story. No mention of tournaments or the Academy sponsorship. No human element at all. This could be any sports store on the internet.

What Else Is Holding You Back

Beyond the critical issues, these problems are quietly costing you customers every day.

DESIGN

6 Different Fonts Loaded

Lato, Montserrat, Nunito, Plus Jakarta Sans, Roboto, Cormorant — all on one site. This slows page loading and creates visual chaos. Professional sites use 2 fonts maximum.

TRUST

Zero Customer Reviews

No testimonials, no ratings, no Google reviews widget anywhere on the site. Customers buy from brands they trust — and trust is built with social proof.

SEO

No SEO on Inner Pages

Empty or generic meta descriptions on About and category pages. No structured data. No descriptive alt text on images. Lost organic search traffic.

CONTENT

Only 3 Blog Posts

All published Aug 2025, all generic SEO articles. No tournament coverage, no player stories, no behind-the-scenes. No content strategy at all.

UX

Blinking WhatsApp Button

The WhatsApp icon has a blinking animation that feels spammy and unprofessional. Should be subtle and trustworthy, not distracting.

REVENUE

No Email or Lead Capture

No newsletter signup, no first-purchase discount popup, no abandoned cart recovery. Every visitor who leaves without buying is gone forever.

Your Digital Presence Today

Three platforms, three different stories. One of them is a goldmine.

STRONGEST ASSET

97.3K

YouTube Subscribers

- Massive audience for a local sports brand
- Videos, Shorts, Live content, Playlists
- Channel description is completely empty
- Zero videos embedded on your website

Audience: Excellent · Integration: None

DORMANT 14+ MONTHS

2,068

Instagram Followers

- 87 posts built up, then abandoned
- **Last post: February 2025**
- Over 14 months of silence
- Instagram algorithm now suppresses reach

Audience: Exists · Activity: Dead

UNDERPERFORMING

2,393

Facebook Likes

- Only 23 people "talking about this"
- ~1% engagement rate (low)
- Mentions Cricketer Akash in bio
- Could be strong for event marketing

Audience: Modest · Potential: Events hub

How SD18 Stacks Up

Website quality · Brand presentation · SEO · Social proof · Instagram activity · Email marketing

You are winning on the ground. You are losing on the screen.

SD18 Revenue Projection — Year 1

₹15–30L

Conservative online revenue target with a proper website, SEO, and YouTube-to-site funnel.

Based on: avg. order ₹600 × 25–50 orders/month from organic + YouTube traffic.

With offline sales data from SD18, we can build a more precise model.

To refine these projections, we would like to understand your current offline revenue, best-selling products, and seasonal patterns.

THE COST

What This Gap Is Costing You

Every day these issues stay unfixed, potential customers are going to competitors.

SEO Only 3 blog posts targeting generic keywords. Your competitors rank for hundreds of cricket-related terms. Every missed search = a customer going to SG or SS.

TRUST 97K YouTube subscribers, but zero testimonials, zero ratings on your website. Customers buy from brands they trust. Trust is built with proof.

VIDEO A 97K-subscriber YouTube channel producing content. Your website has zero videos. Product videos increase conversion by up to 80%.

SOCIAL Instagram dormant for 14+ months. 2,068 followers receiving zero content. An audience built and then abandoned.

Conservative estimate

₹4.8L

Additional annual revenue from converting just 1% of 97K YouTube subscribers at avg. order ₹500

This does not include SEO traffic, email marketing, social media, or repeat purchases.

THE VISION

What SD18 Could Look Like

We built a live, working redesign concept. Here is what changes.

BEFORE — Current Site

Wrong brand name “AD18Sports”

Placeholder text in legal pages

Generic AI-written brand story

6 fonts, template design, no trust signals

Zero videos, zero reviews, zero community

URL structure: /subcategory/bat

AFTER — Redesign Concept

Hero with action photography & Academy badge

Proper legal policies drafted by our advocate

Real founder story, tournament history, mission

2 fonts, modern design, 97K YouTube social proof

YouTube integration, reviews, community page

Clean URLs: /shop/bats — customer-friendly

We will show you the live mockup after this presentation.

A Page That Does Not Exist Yet — But Should

No competitor has a community page. Because no competitor does what you do on the ground.

PARTNERSHIP

Bihar Cricket Academy

- Official kit partner section with photos
- Academy achievements and milestones
- Player spotlights and testimonials
- Training and event galleries

EVENTS

Tournament Hub

- Past events gallery with results
- Upcoming tournament calendar
- Registration and schedules

CONTENT

SD18 in Action

- YouTube video wall — you already have the content
- Player and coach testimonials

- Social media feed integration

This page alone would set SD18 apart from every online cricket retailer in India.

Why Us, For This

Every member of our team brings something specific that SD18 needs.

WHAT YOU NEED	WHAT WE BRING
A real website, not a template	An Amazon-trained engineer who builds with Next.js and React — the same tech used by Nike, Netflix, and Flipkart
Legal policies that actually protect you	A practicing Ranchi High Court advocate who drafts real policies, not template placeholders
Content that sounds human	A literature professor and editor who has been crafting content since 2016
Strategy, not just a redesign	IIM-trained strategists who think in systems — not just pages and posts
AI tools that actually work	ML models built at Amazon — selected 80 of 14,000 for the ATLAS SDE program
Someone who gets sports	A national-level footballer and cricket enthusiast who understands the culture

We are not the biggest agency. We are the right one for this.

NEXT STEPS

Let Us Start With the Quick Wins

No long proposals. No waiting. We start this week.

1

This Week

We begin fixing the critical issues on your live site and present the detailed engagement plan.

2

What We Need From You

Access to your website backend, and your offline sales data — revenue, best-selling products, and seasonal patterns. This helps us build accurate projections and prioritize the right areas.

3

From There

We deliver a full Phase 2 proposal with timeline, investment, and realistic revenue projections tailored to your business.

We would rather show you what we can do than talk about it.
