Why Amazon India?

Amazon India is where people search for cricket equipment. Your website is where they discover your brand. You need both.

350M+

Monthly Visitors

Amazon India is the #1 e-commerce platform. Millions actively search for cricket equipment every month.

70%+

Product Search Starts Here

Most Indian consumers begin their product search on Amazon or Flipkart — not Google. If you are not listed, you do not exist for these buyers.

Trust

Built-in Buyer Confidence

Amazon handles payments, returns, and delivery. Buyers trust Amazon checkout far more than an unfamiliar website. This removes the biggest barrier to first purchase.

Documents & Requirements

Most of these you already have. The key decision is whether to register the SD18 trademark for Brand Registry.

✓ **GST Registration**
SD18 already has this — mandatory for Amazon sellers

✓ **Business PAN Card**
Required for tax compliance and seller verification

✓ **Bank Account**
For receiving Amazon payouts (every 7 days)

✓ **Products & Inventory**
Physical stock ready to ship from Asansol store

Ⓒ **Trademark Registration (Optional but Recommended)**
Unlocks Amazon Brand Registry → A+ Content, brand store, brand analytics, protection from counterfeits.
Check status on ipindia.gov.in

BRAND REGISTRY BENEFITS

Why Register the SD18 Trademark?

- **A+ Content** — Rich product pages with comparison charts, brand story, lifestyle images
- **Brand Store** — Your own mini-website within Amazon (sd18sports.amazon.in)
- **Brand Analytics** — See what customers search for and who they compare you to
- **Brand Protection** — Prevent unauthorized sellers from listing under SD18
- **Sponsored Brands** — Premium ad placements with your logo at the top of search

Trademark registration costs ₹4,500–9,000 and takes 6–12 months. We can start selling without it and apply in parallel.

What SD18 Could Earn on Amazon

Three scenarios based on order volume. These are conservative estimates — many small cricket brands achieve 10+ orders/day within 6 months.

SD18's YouTube audience of 97,000 gives a massive head start — something most new Amazon sellers do not have.

Who SD18 Competes With — And Where You Win

The budget cricket equipment segment on Amazon is competitive but not saturated. SD18 has unique advantages.

BRAND	PRICE RANGE	EST. LISTINGS	AVG. RATING	SD18 EDGE
SG Cricket	₹300–15,000	500+	4.0–4.3	SD18 is more affordable

SD18’s Unfair Advantages

- 97,300 YouTube subscribers who already know and trust the brand
- Bihar Cricket Academy endorsement for credibility
- Tournament presence — real-world social proof
- Cricketer Akash association for influencer-style trust
- Budget sweet spot — most Amazon cricket buyers spend ₹300–1,000

Small D2C brands with zero audience already sell 5–10 orders/day on Amazon. SD18 starts with 97K ready buyers.
